

## Professional Summary

- 8+ years of experience in User Interface (UI) applications design, development, and testing.
- Strong experience in designing User Interface applications with HTML/HTML5, CSS, JavaScript, React, TypeScript, jQuery, AJAX and JSON
- Expert in designing responsive web page using frameworks like Bootstrap, and Angular.

## Skills

- Webpage technologies: HTML/HTML5, CSS, JavaScript, React, jQuery, Bootstrap, JSON, AngularJS, TypeScript, Redux
- IDE: Webstorm, VSCode, Micro Visual Studio, Sublime, IntelliJ
- Environments: Windows, Unix/Linux, Mac, Node.js, Npm, Bower, Gulp, Grunt
- Version Control Tools: GIT, SVN, Stash, Github
- Other: C/C++, Bash Shell, Photoshop, MS Office, SQL, Data Structure, Algorithm.

## Work History

### Front End Developer

#### Synechron - Sunrise, Florida

05/2024 - present

- Developed responsive and user-friendly interfaces using **HTML**, **CSS**, and **JavaScript**
- Built **React** applications, implementing **Redux** for state management and leveraging **Hooks** for functional components.
- Designed and implemented **Unit tests** to ensure code quality and reliability reached 100% code coverage.
- Applied **regular expressions** for efficient data validation and parsing within applications.
- Collaborated with cross-functional teams using **Webex** for communication and **Rally** for project tracking, adhering to **Agile** methodologies to meet sprint goals.
- Maintained version control through **GitHub**, managing branches and pull requests effectively.
- Actively participated in code reviews and knowledge-sharing sessions to improve team collaboration.

### Front End Engineer

#### Lab49 - New York City, New York

07/2021 - 03/2023

- Client name: Goldman Sachs
- Analysis, coding, and testing using **HTML**, **CSS**, **JavaScript**, **React**, **Typescript**.
- Created CSS/SCSS for the entire team to give a standard style of the project.
- Connected with the team using **Figma**, **Git**, **Zoom**, **Microsoft Teams** and **Jira**.
- Fully understand GFO structure and **Restful API** to communicate to backend.
- Integrated **Npm**, **Gulp**, and **Grunt** for efficient project management and task automation.

### Front End Developer

#### Norcapco Integrated Solutions, Inc - East Brunswick, New Jersey

02/2016 - 07/2021

- Client name: The Game Agency
- Analyzed the requirements from the business clients and defined the **Project Plan Documentation**.
- Participated in **REST web service** implementation.
- Participated in analysis, coding, and testing using **JavaScript**, **Node.js**, **Backbone.js**, **JQuery**, and **React**.
- Applied responsive web pages principle by using **Media Query**, **JavaScript**, **JQuery**.
- Communicated with the team using **Github** and **Jira**.

### Front End Engineer

#### ADP, LLC – Roseland, New Jersey

03/2015 - 10/2015

- Participated in the daily standup, planning meeting, demo meeting and planning section of each **Agile** circle.
- Read data from back-end with **Restful API** architectural style.
- Involved in design, coding, testing, and maintaining the project using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, **jQuery**, **underscore js**, **lodash**, and **AngularJS**.

## Education

Master of Science: Computer Science  
Stevens Institute of Technology

GPA: 3.7/4.0  
Hoboken, NJ, 2014
