

Professional Summary

- 9 years of experience in User Interface (UI) applications design, development, and testing.
- Strong experience in designing User Interface applications with HTML/HTML5, XHTML, CSS/CSS3, Javascript, jQuery, underscore JS, Lodash, AJAX, JSON, TypeScript and React.js.
- Expert in designing responsive web page using frameworks like Bootstrap, and AngularJS.
- Strong understanding of artificial intelligence(AI) concepts and workflows.

Skills

- Webpage technologies: HTML/HTML5, CSS3, JavaScript, jQuery, Bootstrap, JSON, AngularJS, Underscore js, Lodash, TypeScript, React.js
- Environments: Windows, Unix/Linux, Mac
- Version Control Tools: GIT, SVN, Source Tree, Stash, Github

Work History

Front End Developer

Synechron - Sunrise, Florida, Client name: American Express, **GenAI Team** 05/2024 - present

- Developed responsive and user-friendly interfaces using **HTML**, **CSS**, and **JavaScript**
- Built **React** applications, implementing **Redux** for state management and leveraging **Hooks** for functional components.
- Designed and implemented **Unit tests** to ensure code quality and reliability reached 100% code coverage.
- Applied **regular expressions** for efficient data validation and parsing within applications.
- Collaborated with cross-functional teams using **Webex** for communication and **Rally** for project tracking, adhering to **Agile** methodologies to meet sprint goals. Participated in database design and maintenance.
- Maintained version control through **GitHub**, managing branches and pull requests effectively.
- Actively participated in code reviews and knowledge-sharing sessions to improve team collaboration.

Front End Engineer

Lab49 - New York City, New York, Client name: GS SELECT 07/2021 - 03/2023

- Participated in the GS SELECT origination front end savings group
- Analysis, coding, and testing using **HTML**, **CSS**, **JavaScript**, **Typescript**, **Node.js** and **React.Js**.
- Involved in writing **Unit Test** to cover all front end codes.
- Created css/scss for the entire team to give a standard style of the project.
- Wrote **regular expression** for validation as a standard for the whole group.
- Communicated with designs, products and colleges in daily scrum, sprint planning and KTs.

Front End Developer

Norcapco Integrated Solutions, Inc 02/2016 - 07/2021

- Participated in analysis, coding, and testing using **HTML**, **CSS**, **JavaScript**, **Node.js**, **Chaplin.js** and **JQuery**.
- Applied responsive web pages principle by using **Media Query**, **JavaScript**, **JQuery**.
- Involved in writing application level code to interact with **Backends** using **AJAX**, and **JSON**.
- Helped to maintain the web page including user interface and server.

Front End Engineer

ADP, LLC – Roseland, New Jersey 03/2015 - 10/2015

- Participated in the daily standup, planning meeting, demo meeting and planning section of each **Agile** circle.
- Read data from back-end with **Restful API** architectural style.
- Involved in design, coding, testing, and maintaining the project using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, **jQuery**, **underscore js**, **lodash**, and **AngularJS**.

Education

Master of Science: Computer Science

Stevens Institute of Technology

Bachelor of Science: Automatic Control

Beijing Institute of Technology

GPA: 3.7/4.0

Hoboken, NJ, 2014

GPA: 3.4/4.0

Beijing, China, 2012
